### Prerequisites

[Download a free trial](#) of the font or [purchase the full version](#). Choose the download appropriate for your operating system (e.g. Windows or Mac OS X/Linux/UNIX/other).

## Installing

### Mac OS X, Linux/UNIX, and non-Windows platforms

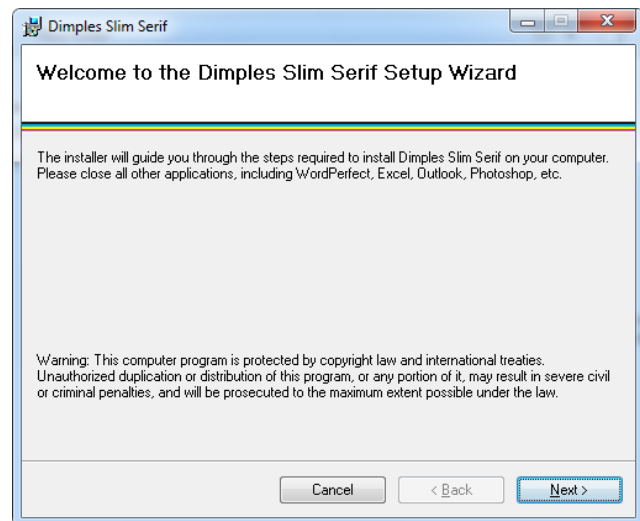

1. Close all running applications, including iWork Pages, MS Word, Adobe Photoshop, etc.
2. Open the .zip file and double-click each font file.
3. On each window that appears, click "Install".

For visual instructions, [watch this how-to video for Mac OS X.](#)

### Windows

1. Close all open applications, including MS Word, Excel, Adobe Photoshop, etc.
2. Open the .zip file and double-click setup.exe.
3. Follow the installer's prompts. (Takes ~1 minute)

Optional: Set you default font to Dimples Slim Serif. This is great for MS Word, Excel, etc. (For specific instructions, please visit: <http://office.microsoft.com/en-us/word-help/change-or-set-the-default-font-HP010368862.aspx>)

## Using

Once Dimples Slim Serif is installed, open an application such as WordPerfect, OpenOffice, or Adobe Photoshop, and choose "Dimples Slim Serif" from the font selection menu.

## Getting the complete Dimples Slim Serif font

The complete Dimples Slim Serif font contains 4 ink-saving typefaces: Book, Bold, Italic, and Bold-Italic. (The free version only contains 1 typeface, Book.) Once you [purchase Dimples Slim Serif](#), follow the installation instructions above.

## Uninstalling Dimples Slim Serif

If you decide to uninstall the font, open your computer's fonts manager via System Utilities or Control Panel and choose the Dimples Slim Serif typefaces. Thanks for trying us!
